122nd  
AUCTION SALE  
OF  
RARE COINS, MEDALS AND  
PAPER MONEY

TO BE SOLD  
SATURDAY, FEBRUARY 25, 1939

*By the Cataloguer*  
M. H. BOLENDER  
ORANGEVILLE, ILLINOIS

## TERMS OF SALE

All coins and bills guaranteed genuine.

New bidders or customers sending in bids for the first time must positively give first class reference, bank reference preferably, or else send a deposit of at least 25 % of the total amount of bids. Otherwise, their bids will not be accepted; application of such deposit will be made upon successful bids; the seller reserves the right to demand payment upon successful bids before delivery in his sole discretion. To those known to me who have established credit, a reference or deposit is not necessary and purchases will be sent out promptly after the sale. In appreciation of this courtesy the purchaser remits promptly.

Collectors who make unlimited bids will get the lots at 5 % above the highest actual bid entered.

The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

Remit by money order, draft, check, or in any way most convenient. Stamps accepted for accounts that are below one dollar only.

Coins will be bought below your bids where other offers permit, as this is competitive bidding, executed in good faith.

The usual charge of 5 % will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. Postage and express is paid by the purchaser.

Receipted bills are not sent out after your remittance as this is unnecessary. Your check, draft or money order itself is a receipt. However, if a 3-cent stamp is enclosed we will send receipt.

Be certain that you bid on the lot you wish to buy. We will correct errors and adjust claims, but you should not expect us to pay for your mistakes. Be careful in making your bids. Be sure that you bid on the lot you wish to buy, and at so much per piece.

Bids must reach me by the morning of the sale. Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, and there are no higher bids, the first received gets the lot. When two or more unlimited bids on a certain lot are sent, the first one received gets the lot at a 5 % advance over the highest actual bid.

Between the seller and buyer, my position is describing the condition of coins and bills has been neutral. My classifications are generally considered to be conservative, by the collecting public.

It is easy to bid by mail. If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values. It is useless and a waste of time to make low bids that have no chance of success. I sincerely hope that each collector acquires some nice lots from this sale that give him a real thrill and joy of satisfaction.

Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece.

NOTE—A printed list of all the prices realized at this sale will be sent for fifty cents (50c). Send coin or stamps with your bids so as to reserve a price list, or if you prefer, we will add the cost to your bill of items purchased for you at the sale. Keep posted on coin values as they are today, and order a price list in advance of the sale. After the sale they cost \$1. Before they are 50 cents.

## ANCIENT GREEK SILVER COINS

A high grade collection of this most interesting and historical series, from the same collection as those in last sale. In Europe where coin collecting is of long standing, and the general public knows what a numismatist is, more than half the collectors own a collection of ancient coins. In this country collectors are awakening to the interest in them, and the reasonableness at which they can be purchased. European prices are much higher. In order to assist bidders at arriving at a fair value, we have given estimates of the value of each lot in this country, or about what to bid for a good chance of success.

1. **Achaean League** BC 460. Tetrobol. Head Artemis to left in incuse square. R. Zeus on throne, eagle taking flight from his hand. Fine, early Archaic style. \$5.

1037. \$5.00 series 1934, small size note, silver certificate. Lincoln Error: note was creased and portion not printed. V. good.

## OLD STATE BANK NOTES

Before the close of the Civil War, there were notes in circulation as money in this country, issued by banks chartered by the different states, known as State Bank notes. When any of these banks failed, they were said to have "broken," and in that case, the notes often proved to be worthless because the bank could not redeem them with gold or silver coin, on account of having lost all their resources through excessive loans which could not be collected, or due to defalcation of officers, fraudulent management, and other reasons. The old state bank notes have received the general designation of broken bank bills, but in many cases this is a wrong designation, as many of these banks never "broke" but liquidated their affairs and paid all the notes presented, in gold or silver coin. Some of the banks are still in existence today, and a few of these old notes have been cashed in at full face value in recent years. Usually, the notes that had not been presented for payment to the bank in a reasonable time, became worthless as money after the bank's business had been fully liquidated. However, they are really **state bank notes**, as the notes were issued by banks chartered by the different state legislatures. Paper money was also issued by states, cities, towns, counties, railroad companies, bridge companies, canal companies, whaling companies, merchants,

farmers, storekeepers, and other tradesmen. These issues were generally called "shinplasters" and were usually in fractional parts of a dollar, though not always.

The vignettes appearing on the old state bank notes were done by the best artists of the period and are genuine works of art. Early views of American life, contemporary portraits of famous men, and other ornamentations adorn these old notes. Collectors have really begun to realize the importance of preserving these old bills as a necessary link in joining the past to the present. Real collectors build up a collection of paper money not with the idea of the dollar value only, but derive real joy in examining the bills, noticing the engraving, the views of so much historical interest, the date, the signatures, anything unusual, as well as the added pleasure of securing new varieties occasionally.

This collection is an important one, and not the common notes that sell at 10 to 25c each. Some notes of this class have been selling at from \$1 to \$3 at auction, and they will bring more in the future, as their scarcity and historical interest is discovered. All are signed unless otherwise stated.

1600. Foreign copper coins, and a few nickel, from all over. Some duplicates. Good to v. fine. 135 pcs.

## A TRIP ABROAD

From Dresden to Vienna is a ten hour ride on one of Europe's crack trains, the "Mitropa." Let us ride this afternoon in a rear observation car to better enjoy the interesting country of old time Bohemia, now the west portion of Czecho-Slovakia. Old Moravia, Silesia and Ruthenia make up the balance. But before we leave Germany near the border, we "foreigners" must all leave the train and give a strict accounting of our money again. So we count all and report in. To be sure, but not to our surprise, we find that we have less money than when we entered Germany, and we clear customs.

Czecho-Slovakia is a beautiful and a resourceful land. No wonder Germany wants it. Known as the granary of Europe, its farm products are wheat, corn, oats, barley, rye, hops, sugar beets, fodder beets, potatoes, clover, wine and tobacco. Mineral products are coal, lignite, iron, gold, silver and graphite. Factories make cotton and woolen goods, laces, gloves, glassware, toys, etc. Lots of poultry are everywhere, geese, ducks. Agriculture is intensive but mostly by hand. It is common to see a dozen or more persons in a field on one job. Women and girls help to harvest. Oxen are used to pull the loads of grain. Today happens to be our warmest of our whole European trip, 77 degrees. A heavy rain yesterday has laid the grain down flat in whole fields. Quite in contrast to the hot dry weather in America at the same time (1936). The fields of hops are interesting with the tall twining twisting stems growing to a height of 15 or 20 feet.

Then the country is one of the most thickly wooded in Europe. We follow the beautiful Elbe river and its tributaries. There are fishermen along the streams and pretty little lakes. There are plains and rolling land, mountains of sandstone and pine forests. Fine country estates, old castles, and small neat cottages with red roofs or green thatched roofs dot the land. Pretty bridges span the many small streams.

Most of the people are Catholic. Tabor is a fine historic city founded in 1420 by the Hussites. It has a museum of Hussite memorials. The people are friendly especially to Americans, for it was President Wilson in 1920 who helped them plan their constitution and organize their republic. In Prague the capital, the best hotel and station and street are named "Wilson." Now our train has sped to the Austrian border and it's passports again. We enter the Danube valley of Austria, en route to Vienna, arriving about ten that evening.
